INTRODUCTION

Has your DS Lite battery stopped providing the game time you deserve? Replace the battery to free yourself from the wall charger.

TOOLS:

- Phillips #00 Screwdriver (1)
- Spudger (1)

Step 1 — Battery

- Unscrew the Phillips screw securing the battery cover to the lower case.
- The screw remains captive to the battery cover.
- Pry the battery cover upward with a spudger or fingernail, and lift out of the lower case.

Step 2

- Wedge the edge of a spudger in between the side of the battery and the lower case housing and pry upward to dislodge the battery.
- Remove the battery from the DS Lite.

To reassemble your device, follow these instructions in reverse order.
